DETAILED ACTION

Allowable Subject Matter

1. Claims 28-30 and 36-50 are allowed.
2. The following is an examiner's statement of reasons for allowance: See previous office actions as related to claims 29-30 and 41-50. As to claims 28 and 36-40, the examiner agrees with applicant's arguments filed December 2, 2003 with respect to Spence excluding the limitations of both the inlet and outlet tubes extending into the interior of the gas domes. While applicant also argues the intended use and the problems addressed by the device of Spence are different from that of applicant's device, the examiner asserts neither issue has weight in the patentability of the device over that of the prior art of record.

It has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. Ex parte Masham, 2 USPQ2d 1647 (1987).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian R. Gordon whose telephone number is 571-272-1258. The examiner can normally be reached on M-F, with 2nd and 4th F off.
